In other words That asset report is a normal report that you get, I myself just delete it.So with that being said its hard to tell by you just posting that it spit that out , weather or not you did something wrong is hard to tell by just letting us know that.

Anyways tell us step by step just what your doing so we can help ya out k?....for example: i loaded scripts.dll in the folder named scripts made my mods saved my mod as field1.mix in a folder on my desktop ,then i opened up XCC mixer then opened up field.mix and deleted the lsd and ldd from it and then added the new lsd and ldd to my newly modded field.mix blad blah blah blah blah lol k.
