for starters, u have to wait

If you pay a tiny fee for premium, you never need to even see their site. The download speed will max out your connection too.

That's why it sucks. I have a premium account, but it expires in like 3 more days... I don't like paying for it.

File front was free, didn't have any wait times, and was fast.

And whats now with your Premium account and your money?
