A temporary ban is giving them another chance. How is it not? Just because it's known that they'll be let back in doesn't change that it's a second chance. It's saying, "you're being given a second chance after you take a fucking chill pill."

Besides, fuck second chances. If you're willfully being a jackass, what makes you think you deserve a second chance? In the case of Heavy, he was given second chances because he was more ignorant of what he was doing than what troop did. To an extent, he deserved them. Troop, he consciously did his antics knowing full well what reactions he would get. Rehabilitated or not, I still don't want a person like that around, period.
