I hope they bring in some exotics in the next one...would love to see Lambos, Ferrari's, Merc SLR's in an European setting. Movie would kick ass imo...

Don't forget merc AMG BLACK though :+ Those are sweet aswell, just like BMW M5/M6

Oh yeah the AMG Black series is awesome! Those cars are sick looking when modded plus more status to the driver due to Merc badge...

I really wish they would make a euro-themed movie but I dunno if it will do so well in the US...

They could atleast use kits to save costs.
