Omar007 wrote on Thu, 23 April 2009 11:43Quote:TT will install properly on all 1.037/CP1/CP2/renguard/scripts x.y.z, etc (at least all the things we know of). With TT, there will be no need to install any of the other things listed above.

So with the TT patch will the NumLock animations be included too???
make it customizable and if they can be disabled manually why not :
