Goztow wrote on Thu, 23 April 2009 09:45: Have you ever played on it with a couple of people? 90% of everyone who have played on it regularly, including me, have had this problem.

For the rest, there's mainly the mining issue which seems to be solved now. I also really like glacier a lot, but the FPS issues are a big PITA. I think I never actually got that problem before my latest Windows reinstall. Now I've had it a few times.

It's very mysterious indeed - but it could be connected to bluehell some way and it might already be fixed by the TT team. Or not. But we can hope.
