Goztow wrote on Thu, 23 April 2009 07:59 Yes: poor fishers need to be allowed to pirate foreign ships to make money...

I'm not saying they should, but I think it's mainly our fault for actually giving them money, not arming the ships with defences and depleting their fish stock.

If I was living in the states that they do, with no way of feeding myself or my family. I would turn to piracy with no problem.
