Scrin, you are the last person who should be bitching about people not publically releasing things. Until a few weeks ago, you wouldn't release a single byte of your work because of the exact same reason, "I don't want people stealing my work and claiming it as my own." You do the exact thing that he is talking about and what you didn't want people to do to you.

God, I'm 5 years younger than you and I act about 10 older. I guess maturity actually doesn't come with age.
