No, you can't change a preset server side. You might be able to temp them though, I am not sure... if you can then you could just temp something that's pokable and change it's model to match.

I don't really get involved with server side modding myself, I prefer original Renegade to all these wierd servers with buy commands and zomg-invisibul-flyin-havooks-roflcakes rubbish that seem to be appearing everywhere.
