The Mayans, the I Ching, and these "Web-bots" all point to 2012 as the end of the world. What do you all think is really going to happen? I've become very intrigued by this in the past months, and I've come to the conclusion that this may actually be real. The source of all this phenomena, I believe, is from an extra-terrestrial species. I know it sounds crazy, but just how alone do you really think we are in this universe?

LETS GO MAN-KIND AND <insertcensorhere>-UP THE HUMAN MIND INTO THINKING THE WORLD IS GOING TO END

Remember 06-06-06?

Fun <insertcensorhere> right there.
