Some like Terrace are so drastically bias they need to be deleted off every computer in the world.

Some like Sun Fusion or Dust are a complete eyesore and buggy as hell, same recommendation as above.

Others are good looking and fair but lag like an old lady crossing the road in rush hour traffic.

Basically, newmaps are 90% phail. and the server mods nowadays are 100% phail. Renegade lacks the quality of maps and moderators it used to have. Mainly due to many people- mods and mappers alike- moving on to other games. But I have been working on a few things. I have at 2 full AOW maps pretty much only needing VIS data, and one completed instagib map (all mix format) Is ee that soem others are still making maps that is good to see, keep up the good work.

Remember, Modding is what keeps this game alive!
