JeepRubi wrote on Thu, 02 July 2009 05:13It's the same one the flamethrower leaves, meaning that if you replace the laser's scorch mark you will also modify the flametank's/flamethrower's scorch mark. Anyway, the file is scotch01.dds

He wants to change the model of the smoke/fire stuff which comes when you shoot with the laser. Not the burnmark..
