Hey, i'm modding C&C City and first i need to retexture the w3d in 3ds max. So i started doing that and i got stuck.

While i was texturing the road, i has to turn the texture. So, i didnt know how to because i'm not a texturer or anything like that.

Here is a pic of the situation.

sorry, screen resolution

### Material Editor - Standard\_6

Material Navigation Options Utilities

Standard\_6 W3D

Material Pass Count

Current Pass Count: 1 Change

Pass 1

Vertex Material Shader Textures

Stage 0 Texture

Map #56 (cc\_road2.dds) Display

Clamp U Clamp V No LOD

Stage 1 Texture (Detail Texture)

None Display

Clamp U Clamp V No LOD

The Material Editor window displays a grid of material preview spheres. The selected material is 'Standard\_6'. The 'Material Pass Count' section shows 'Current Pass Count: 1'. Under 'Pass 1', the 'Textures' tab is active. 'Stage 0 Texture' is checked, showing 'Map #56 (cc\_road2.dds)' with a 'Display' button and 'Clamp U', 'Clamp V', and 'No LOD' options. 'Stage 1 Texture (Detail Texture)' is unchecked and set to 'None'.
