R315r4z0r wrote on Wed, 08 July 2009 02:26:3rd person is a different game than 1st person.

For the first 2 or 3 years of me playing Renegade, I swore by 1st person and never tried 3rd. However, once I went to 3rd, I began playing much better than I ever did before.

So now I use 3rd 95% of the time.

Same, and 3rd is not only good for sniper because of free aim, it's the best against automatic weapons
