it's not hard to install it, it's just shitty and makes my game freeze up and crash every single time i exit renegade

on my screen people also appear to glitch and warp when they jump with 3.4.4 when they don't in previous scripts

also, i couldn't help but notice i was getting stuck to things a lot more with 3.4.4 than i ever did without it

the only thing i like about it is the coked-out turret speeds
