Who are you to decide which community deserves the hostname more, if it isn't even your hostname to begin with?

Anti-NS? The way I see it, people left your community, then started their own, seperate community.

Also.. your server nickname? Did you even use it back then? When a new community was formed on that nickname (Exodus, or should I say faildus/exofail because you like filtering it to that, really good job on deleting that poll btw) you instantly wanted to put up a marathon server on that nickname, probably just to stop us.

Also, for the record, this is how I see it, and this does not reflect Exodus' view on things (Even though they might feel the same about it, but yeah).
