Muad Dib15 wrote on Sun, 02 August 2009 04:34 Get a Malibu hybrid. Chevy's last forever, at least they used to. Our 95 Suburban is just now starting to fall apart after 14 years of hard use and 230,000 miles.

Ehmm 14 years and it's **ALREADY** falling appart? OK, it has run it's distance, but 14 years isn't really that old I would say?

So please elaborate, in which way is it falling apart. Body shell or engine/drivetrain?

Because the latter would be acceptable, but body shell :/?
