The "lol" is that we all know that Crimson likes to abuse her power on this forums, like removing threads about Exodus Faildus and the filter that never appeared to have been there.

The most accurate strikeout here is on the "ab", since she can do whatever the fuck she wants and isn't answerable to anybody. Why is that so hard to understand?

I understand that perfectly that she can do whatever she wants right now, whether she thinks Westwood would have approved it back in the day or not, though let me ask you a question.

Why are you acting all of a sudden like Crimson is a goddess? (Goddess, because it is the female form of God, obviously)
