
Subject: Renegade 2... 80% complete when cancelled!?

All of that is complete nonsense.

Here's a quote from Dev aka Cliff Hicks former employee of Westwood Studios, used to be Community Manager for Command & Conquer Renegade...

Quote: "So I've been hearing rumours that Renegade 2 was 'Mostly done.' Well, when the project was cancelled, there were no finished maps, a couple of half-finished units and a lot of work to be done. If I had to guess, I'd say we were maybe, MAYBE 5% into the project. Unless the project was restarted after I was finished, which I doubt, all these reports are false."

Once more here is what he has to say about those "Renegade 2" Screenshots:

Quote: They weren't really Renegade 2 screenshots so much as a tech demo we were doing with the Renegade engine to prove we could do Renegade 2.
