When i try to load my map Emptyness (yes it is complete empty, just a plain heightfield) it crashes after i loaded the map. I have a (almost) complete empty always.dat so it has only the required files to run (http://www.renegadehelp.net/Tutorials/TUT_Full_Con/Required%20Renegade.rar) so it's a clean start again. I modified the spawner to use the file c_ag_havoc.w3d

Here is my Editor output and the crashdump. I hope someone can help me out.
