more like CptConfusing

what you're saying hitman applies more to heat or zell than it does to clear, clearsh0t actually plays and is still a full mod from however many years ago he was made one

zell barely plays renegade at all but he plays at jelly when he does  
and heat is just some angry guy from canada who shows up at weird times

you could play for jelly if you wanted to because you do play there quite often; let tempozia take your spot, he'll just have to turn some of his shit on to be as good as you
