Could this Area-51 750i handle UT3 (Renegade X ^) and other games such as Fallout 3 and MW2?

<http://www.alienware.com/products/area-51-750i-desktop.aspx?SysCode=PC-A51-750I&SubCode=SKU-DEFAULT>

Is there also cheaper, better ways to get a KICK ASS computer that handles kick ass games such as these?

I am 100% n00b in this area so speak english when you reply
