I'm at the point where I just don't really like any of the regular maps anymore. I've played all of them so many times that I've got bored of them (especially under since I was stuck on the demo for almost 2 years). But the fan map servers just don't have many people anymore. I think automatic map downloads would be awesome because then everybody would have the maps, so I hope that does happen. But if I have to choose I'll say Walls Flying.
