you need download from Di3hardNL file not from them cos they are reskin.

frist install this file <http://www.renegadeforums.com/index.php?t=msg&th=33341&start=0&rid=24860>

then install reskin as above it would be working fully

I am having the same problem. I downloaded Di3hardNL's pack and installed it first. Then installed Dreganius' pack. It did not resolve the issue.
