I have added the 2 files to the plugin folders but it dosn't seem to return the hash.
<&MvrBot1> Player mvrtech joined the game
<~mvrtech> !gethash mvrtech
<&MvrBot1> No hash for mvr found.

I use BRenBot 1.52 with Serial Plugin 1.06 and i enabled the queryOnJoin in serial.xml which makes no difference.

Any ideas what i missed?
