aiight ill clear a bit, well Saturday was our best Day, the normal day which should be played on, on Saturdays we manage/managed to get 8+ people but as for Friday and Sunday are our worst days due Work/Going out/Sports, so Their best days were our worst, and our best day was their worst day.

also for the 4v4 was at 3 GMT and i said at 5 GMT we would have more people to play like 7+ and at 5 GMT they could not manage that amount , at that time they could just manage 3-4 so it would be basically be a 4v4 anyhow no matter that day.
