Second to last mission, there's a black hand sniper with a ramjet. That's the only time it's ever seen AFAIK.

It might also be in the very last mission right at the beginning, although I could be mis-remembering  
I can only remember the guy on the command center (elite blackhand) shooting with a ramjet. But I have never been able to find it or pick it up after killing that guy.  
Only way to get it is changing your objects.ddb or in the last mission using a c130 dropmod to let the cargo plane drop weapons.
