Where is the "Hitchhikers Guide to The Galaxy" option at?

I picked Star Wars out of the 2 as it does not have some secret language to learn, and is only 6 movies as compared to how every many seasons there were of Star Trek... Also lightsabers, wookies, Xwings = FTFW.

Edit: On the other hand where would we be without our awesome facepalm.jpg's from Star Trek? I mean sure there are others, but those are some of the best.
