Alright i figured we should have a clan for RenX as well

We have a nice server (62.212.66.163:7777) we can all play on thanks to Strike and Bolleno so everyone sign up for MP already

There is also a irc channel for renx: irc.mp-gaming.com #mp-renx

We use the tag [MP] in game to signal our clan abbreviation. So my ingame nickname will be [MP]zunnie

That said, if you wish to join then you need to make sure you use that clantag in your nickname.

Currently im the only member and i hope to see some more people join me and make this a succesful fun clan.

It doesn't matter if you are good at the game or not, it is for fun really

If you would like to join then please create a new topic in the MP Clan RenX Public forum
