listen buddy, i had something urgent to deal with. you're basically saying that another admin didn't live up to the standards of the league when i was running the show?

here's a question, and you are not allowed to dodge it. either answer it or admit you can't answer it. if whiskey was such a terrible admin, why didn't you make another league and run it better?

ZeLL wrote on Mon, 26 October 2009 17:06and by the hitman thing i meant your trying hard to make it so people will actually join your league and enjoy it without people talking shit to them yet you have hitman who is PMing people and flaming them when he was not even mentioned in the topic which kind of ruins ur motive of trying to restore league dont you think?

in principle it's a fair point, but in practice it fails because when i take a stand against far worse offenders than hitman (simpee's probably the best example), you're against it; you go out of your way to attack me for doing so.
