ZeLL wrote on Tue, 27 October 2009 08:44no i meant drama involving pretty much like this, involving you making a decision which the community doesnt share and then there ends up being a huge fight on the forums

Which decision? They're all up for civilised debate. Go check the clanwars forums; some decisions are actually be affected by the debates... skins, for example.

ZeLL wrote on Tue, 27 October 2009 08:44and now your missing my point you have said what you needed to say about them breaking the rules but there was in all honesty no reason to keep repeating it

It's very hard to take this seriously when you've said nothing bad against clear and simpee. They "kept repeating it" too... at least what I said was actually true.

ZeLL wrote on Tue, 27 October 2009 08:44mike simply stated he thought the league wouldnt be a proper league without simpee and clear as competition and he didnt think they should be considered cheaters and he just wanted the arguing to stop

Check the thread again... once again it was up to me to be the better man. I dropped it and said they can both play in the league so long as they try playing fairly and abiding by the rules... this is in spite of everything they've done.

ZeLL wrote on Tue, 27 October 2009 08:44in the end you started wondering why he was defending them when all he was stating was an opinion which most people share on the forums, that they feel the league would infact be better off with these 2 as competition regardless of what they have done

you saw it as some kind of defense and started moaning about why no one defended you read what i just said about this, it's very simple.

ZeLL wrote on Tue, 27 October 2009 08:44but now if you look you will find it is on clanwars.cc it is on exodus and it is on this forum(all this happened on the jelly forums yet you have continually put what happened in that topic on each of these forums and maybe more i havent checked any others).

clanwars? it seems like it belongs on clanwars.

jelly? clear and simpee started their ridiculous campaign of lies there, not me.

exodus? some other players brought it up, i just answered their questions.

and here seems like a fairly appropriate place to mention it too, since we're talking about revitalising the league.

anyway, what's your huge objection to me talking about this? is it because it totally humiliates your friends? people post all sorts of ridiculous crap to flame me all the time, i don't see you complaining about that.

ZeLL wrote on Tue, 27 October 2009 08:44i just find it ridiculous and childish to keep going on about it and i dont think an admin should really keep doing what you are doing taking a hard line against people like clear and simpee? defending himself against false accusations? i think that's exactly what an admin should be doing.
