SSIDJTHED wrote on Thu, 29 October 2009 21:04yeah.... and browsing through this thread..... i think i have foregoten to release a version.... or am i just thinking that?

This thread is up since 30 september and after that you haven't released anything. (In the line of a quickfix/patch/update)

By keeping this topic on top of the modrelease section newer threads will be pussed down and wont be viewed.

So my advice:
If you want to release version 0.2 make a new thread.
If you want an update and comment thread post it in the modforum.
