Wait, so you admit it now? If you are making the case that this was something you only did way in the past, the date of those logs was only abt a month ago...

Not to mention, after you were banned, you started cheating in our co-op server under the name IWantBeef. You even gave out links to download *cheat name removed* to other players ingame. I can post these logs as well, if you wish.

In fact, even today you were caught evading our ban under the name georgeofjungle33.

So, I find it hard to believe that anything has changed.
