My god @ people not getting along. Shouldn't be a competition for people in a server like it really is now-a-days, would be nice if communities supported other communities. Even if it's all fake, for the players' sake, at least play nice. Personally, for me, when a community is being discussed are argued about with another community, and the other community reacts, i tend to stay out of both communities servers and forums until it is resolved. I know this may surprise a lot of you, with a lot of you loving drama, because then you get to argue and all, but wow, even when some random noob gets banned and posts it here we need to start talking from one community to another...it should be from 1 PLAYER to another PLAYER, or not at all.

Sorry, just thought i'd post this somewhere eventually, and idk why i did here .

<3 Raven for trying to stay out of it by saying the old "we have our own opinions."
