Subject: Re: Renegade on Windows 7?
Posted by Creed3020 on Fri, 20 Nov 2009 15:52:02 GMT

So the install went fine and for the record I followed the instructions in the sticked thread in this forum. BUT when I join some servers, e.g. n00bstories, Jelly I see nothing but yellow. My HUD shows up but nothing else does. Does anyone know what might be causing this or what to do to solve it?
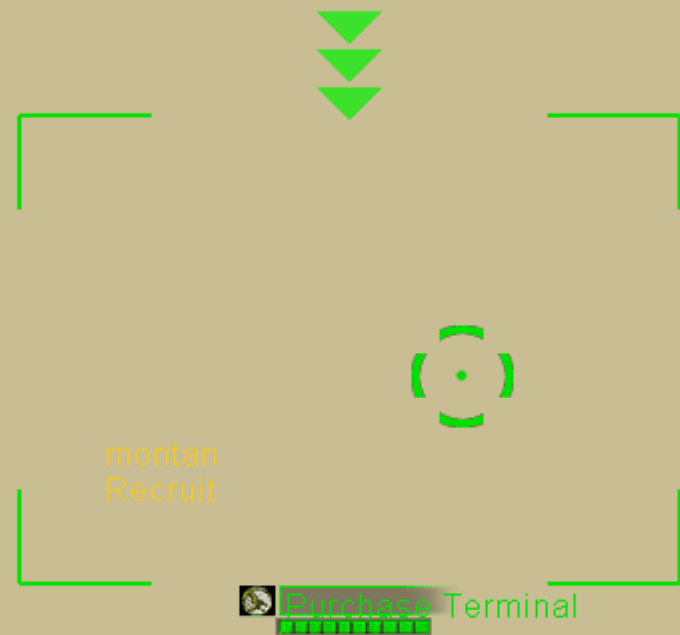

Thanks!
