You stupid arrogant ass, it is a preference... obviously not yours, but a lot of other people share it.

Yes, it's a preference, but not an advantage. QQ more..

There was obviously a reason for them to add that to the game... a lot of people use it and do better (not just hugging either). And no QQ'ing just stating that you are a douche, and rather annoying with your opinions that you post as facts.

Yes, and I'm sure there was a reason to add the walk-feature and the tibsdney as well...stfu. If the top tier of players doesn't need it, then neither do you. It's like first person view...helpful in a few situations, but most of the time there is a better alternative.
