Hi Guys

I have a problem with renguard and the server n00bstories

every time i connect to the game it tell's me that i have to download renguard and then kicked me out because of that , at the same time i've already downloaded and installed the renguard correctley.

note:
when change my nick name it works and i can play but it tells me that i should use renguard , and i really want my old nick name.

My OS is WINDOWS 7 AND MY NICK NAME IS $SPECTER$

any one can help me ?

Thanks in Advance
