R315r4z0r wrote on Fri, 27 November 2009 18:34 How do you effectively test for skins?

You would have to get a SS with a private message in it at the very instant you want to see what he sees... if they fail to get the message in there it could be because they alt tabbed out to remove advantage skins/models. I would assume it would include a model replacement that has emitters like the glowing C4.
