ExEric3 wrote on Mon, 30 November 2009 12:42I think just binkw32.dll is renamed to binkw32-original.dll and is placed his binkw32.dll.

Then to the main folder are placed:
resurrection.dll
MemoryManager.dll
dbghelp.dll

and new dir resurrection with config files.

Yrr correct me if im wrong.

yeh its worled for me

resurrection folder
binkw32.dll
binkw32-original.dll
dbghelp.dll
MemoryManager.dll
resurrection.dll
