so what if he didnt want to lead in this comm war? fact is he hosts like 4 servers right now since there is not really a decent alternative, back when you hosted yours... there were a bunch of alternatives(which u never wanted to use tho) so give that money to spooner... if not for having 4 servers up for us, then give it to him for reviving clanwars(cause without him, you probably wouldn't even have a team to lead, whiskey)
