Also, I put him on our watch list. The moment he tries to pull off a move, he's gone.

Watch list? You mean Exodus doesn't ban known shameless cheaters instantly? Brb, downloading *CHET NAEM REMOV*.

We'll have our mods watch him and as soon as I see him joining I'll keep an eye on IRC. As soon as someone complains I'll watch him ingame if another mod is not doing that yet. Hell, I might instantly drop the hammer on him when I see lots of complaints because I don't want to waste my time.

Anyways, the policy is not to ban people for cheating in different server. As far as I am aware, this player has not yet cheated in our server. The exception to this is when said player might pose a threat somehow, like Mandai. For the record, we've also let Loki play in the servers. We were watching him a lot and he was clean, until the day he did abuse *cheat name removed*and the mods instantly banned him. His explanation by then was:

10/14|23:13:40 | +Jakson: this is devastating

10/14|23:13:56 | +Jakson: i wa s gonna stay unabnned but then ig ot high

tl;dr: No, we don't ban players for cheating in other servers.
