Edit - Your post is in the silo, a private dumping ground for stuff that needs to be moved, I imagine TT are already aware of this particular issue, as that style of hack is a little old, however, I'm sure that a TT member will be able to see that post anyway. If not, I can copy it in PM.

To what TT member did you send it? ATM Ghostshaw and Jonwill are active (this holiday in particular) so any of them would be the best.
