Zeratul wrote on Thu, 24 December 2009 10:15the only games it hasnt sidelined is fallout3 and starcraft but all my other games it has...

I just noticed this. Is it safe to assume you cheat at StarCraft, too? Cheats for StarCraft are pretty easy to get and use, so if you would go through the effort of cheating in Renegade, I think it's pretty safe to assume you cheat in StarCraft (Especially since there's more to gain there).

If you do, can I have your IP to add to my banlist?
