Shark wrote on Thu, 07 January 2010 13:22: is this topic to do with ppl. they buy Humvees and Armored Personnel Carriers and jus shoot whole game

in sum servers they do that an it's anooying i leave

It is hard to understand all of your post, but your flag is American... Are you originally from America?

The pointfix debate could be applied to the hummers and/or APCs. If they are just out looking to only shoot at green health vehicles... Still though, they would be more useful than a ramjet sniping a harvester.
