General HavocYeah I'm definatly banned. I understand that the server is supported by an xxx site and it's a great server. One of it's kind in GSA, But I can't understand why they banned me. Not even one single warning.

- Gonna play some Planetside instead

This happened to me as well, simply page the host, asking for an Unban. (it worked for me, maybe i was just lucky that the Host was actually there though)
