Well I must be mentally challenged, because I liked... actually I must be really reall retarded as I am the one that made it. I didn't make this because I thought everyone that plays Renegade would love it so much and use it forever. I made it for myself, then when I was about to make some new GDI tanks I thought I could post it here for 2 reasons: 1. Maybe someone else will find enjoyment using it. 2. If I ever need to find it again for whatever reason, I know that it is here.

So thank you for your opinion anyways, next time maybe try not to sound like such a douchebag though.

Don't mind him, he's a douchebag that uses std::

I like it :3
