Subject: Secondary Monitor and Vid Card Question Posted by slosha on Thu, 28 Jan 2010 01:00:12 GMT View Forum Message <> Reply to Message

Ok, I did some Google searching awhile back and my vid card (Mobile Intel GFX Media Accelerator X3100) supposedly supports up to 1600x1200 on a secondary monitor. But in the options it says otherwise.

So, is what I found true? Or can my laptop support higher resolutions?
