you can download this from here

this skin pack contains everything you have ever seen that is my own WBG design, including the building.

the Apc, Harvester, Cargo Plane, and Recon Bike arent done, and arent going to be done until summer break, which is waay off. also the infantry are probably not going to be completed either.

this skin pack contains the following

Infantry
Nod Officer
Sealth Black Hand
Laser Chaingunner

Vehicles
Buggy
Mobile Artillery
Light Tank
Stealth Tank
Flame Tank
Apache
Chinook

Effects
Custom Apache/chinook rotor
Custom techno Stealth effect
Green lighting on structures
WBG Crate
green nod logos

Weapons
SBH laser rifle 1st and 3rd person

all current building skin modifications, i express that i dislike the buildings yet still people beg me for them, so here they are, do not complain of incomplection or ban.

ok so there you go, i will update this thread as I go, so you dont have to go trolling to find them all like collectors items. everything is right here.

thanks.
