Thank you sir, i fixed the othe rproblem, i took some freash code and installed the crate upgrades alone, then everything else worked. I also put in your code you posted on the thread for the crates and have it now working with your vet system, thanks

I have to download teh level editing program and Will work on the frequency of the crates. I was hopping these was a ssgm.ini entry i could do but i'll go map for map if i have too
