Germany is GMT + 1 hour meaning it will start at 19:00 GMT if I am correct. I may turn up if I am not doing anything. The map selection in my opinion is okay but nothing different from other servers. I'm looking forward to playing the new maps though.

Also Remember it's MMN tonight - Beany's final one for a while. If it's anything like last week it should be great fun. I just hope my latency is a lot better than 520ms this time.
